

KJC Signature Series Fenders

Kustomwerks and Kendall Johnson Customs have teamed up to offer a KJC Signature Series of fenders. Kendall Johnson, one of the most widely recognized custom builders in the industry today, put his own signature of style on these fenders. KJC signature fenders offer all of the same great features as the WILD CARD brand of fenders offered by KUSTOMWERKS, but Kendall Johnson has developed his own style of trim for these fenders. KJC fenders are offered in Softtail-style rear fenders, Rigid Rear fenders and front fenders in various widths.

This signature series of fenders has the same great radius, phosphate etched to prevent rusting before painting, 14 gauge one-piece construction to prevent splitting or cracking from vibration as our Wild Card fenders. The Kendall Johnson Signature Series fenders are offered exclusively by KENDALL JOHNSON CUSTOMS and KUSTOMWERKS

Front Fenders

11421 SOLD EACH
Fits 19" or 21" wheels on Narrow Glide front end, can also be used on Wide Glide front ends if fender spacers are used. Fender is **4.25" wide and 42.30" long.**

11422 SOLD EACH
Fits 19" or 21" wheels on Narrow Glide front end, can also be used on Wide Glide front ends if fender spacers are used. Fender is **4.75" wide and 42.30" long.**

11423 SOLD EACH
Fits 19" or 21" wheels on Narrow Glide front end, can also be used on Wide Glide front ends if fender spacers are used. Fender is **5.50" wide and 42.30" long.**

Kendall Johnson designed signature series Heavy duty front fenders made from 0.080" (14 gauge) steel and formed in one piece for added strength. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw and un-drilled for custom applications.

Softtail Rear Fenders

11428 SOLD EACH
KJC 9.00" Softtail rear fender. Fits Softtail style frames using up to 200mm wide rear tires. Fender is **9.00" wide and 31.50" long.**

11429 SOLD EACH
KJC 11.00" Softtail rear fender. Fits Softtail style frames using up to 250mm wide rear tires. Fender is **11.00" wide and 31.50" long.**

11430 SOLD EACH
KJC 12.50" Softtail rear fender. Fits Softtail style frames using up to 280mm wide rear tires. Fender is **12.50" wide and 31.50" long.**

11431 SOLD EACH
KJC 13.50" Softtail rear fender. Fits Softtail style frames using up to 300mm wide rear tires. Fender is **13.50" wide and 31.50" long.**

Kendall Johnson designed signature series Heavy duty rear fenders for Softtail-style frames. Fenders are made from 0.080" (14 gauge) steel and formed in one piece for added strength. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw and un-drilled for custom applications.

Rigid Rear Fenders

11424 SOLD EACH
KJC 9.00" Rigid rear fender. Fits Rigid style frames using up to 200mm wide rear tires. Fender is **9.00" wide and 41.85" long.**

11425 SOLD EACH
KJC 11.00" Rigid rear fender. Fits Rigid style frames using up to 250mm wide rear tires. Fender is **11.00" wide and 41.85" long.**

11426 SOLD EACH
KJC 12.50" Rigid rear fender. Fits Rigid style frames using up to 280mm wide rear tires. Fender is **12.50" wide and 41.85" long.**

11427 SOLD EACH
KJC 13.50" Rigid rear fender. Fits Rigid style frames using up to 300mm wide rear tires. Fender is **13.50" wide and 41.85" long.**

Kendall Johnson designed signature series Heavy duty rear fenders for Rigid style frames. Fenders are made from 0.080" (14 gauge) steel, formed in one piece for added strength and reinforced at both ends. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw, **without chain cut** and un-drilled for custom applications.
