

Britt Signature Series Rear Fenders

Kustomwerks and Scott Britt of Britt Motorsports have teamed up to offer a Signature Series of fenders. Scott Britt is nationally known for producing some of the most cutting edge metric custom bikes in the country. Late in 2006, the two companies collaborated in developing several new sheet metal offerings for V-star 1300 model, Vulcan 900 and 2000 models. Scott will be offering these same sheet metal products on several "Britt Signature Series" motorcycles that will be introduced to the market later this year. Whether you want to change the look of your current bike, or you want to be one of the lucky few to own one of Britt's limited production signature series motorcycles, we've got you covered.

Vulcan 900 "Bolt On" Custom Rear Fender Vulcan 2000 "Bolt On" Custom Rear Fender

111712 SOLD EACH
Fits Kawasaki VN 900 models from 2006 to present. 10.25" wide rear fender **without** license plate box.

Scott Britt, one of the biggest names in Metric Custom motorcycles, has come up with a way of visually changing your 2006 and later Vulcan 900.

This 10.25" wide fender is designed to allow the use of wide tires up to 210/50/17 while utilizing your stock fender struts - **no modification required, bolt's right up** and gives a fresh custom appearance to this model. This one piece 14 gauge steel wide rear fender is phosphate etched so there is a minimal amount of paint preparation.

111715 SOLD EACH
Fits Kawasaki VN 2000 models from 2004 to present. 11.00" wide rear fender **without** license plate box.

Another quality Scott Britt custom fender. Pure custom at a budget price.

This 11.00" wide fender is designed to allow the use of wide tires up to 250/40/18 while utilizing your stock fender struts - **no modification required, bolt's right up** and gives a fresh custom appearance to this model. This one piece 14 gauge steel wide rear fender is phosphate etched so there is a minimal amount of paint preparation.

Yamaha V-Star 1300 Strutless Rear Fender

111721 SOLD EACH
Fits Yamaha V-Star 1300 models from 2007 to present. 11.00" wide rear fender **without** license plate box.

Scott Britt got his start in custom metric's turning out some of the wildest Roadstars in the country. Scott has scored another home run by creating this Strutless fender.

This 11.00" one piece fender is designed to pick-up the stock strut mounting holes and will accommodate tires up to 250/40/18. The welded struts on this fender are blended to give a really clean appearance. Bolt this beauty on and presto - you've completely changed the look of your V-Star.

These 14 gauge steel rear fenders are phosphate etched so there is a minimal amount of paint preparation.

Note: minor cutting and drilling required.

Britt Signature Series Front and Rear Fenders

Kustomwerks and Scott Britt of Britt Motorsports have teamed up to offer a Signature Series of fenders. Scott Britt is nationally known for producing some of the most cutting edge metric custom bikes in the country. Late in 2007, the two companies collaborated in developing several new sheet metal offerings for Roadliner and Stratoliner models. Scott will be offering these same sheet metal products on several "Britt Signature Series" motorcycles that will be introduced to the market later this year. Whether you want to change the look of your current bike, or you want to be one of the lucky few to own one of Britt's limited production signature series motorcycles, we've got you covered.

Yamaha Roadliner and Stratoliner Front Fender

111710 SOLD EACH

Fits Yamaha Roadliner and Stratoliner XV 1900 models from 2006 to present and custom applications.

What about a custom front fender to match that custom rear fender? This 6.25" wide front fender is made from 14 gauge steel and is phosphate etched so there is minimal preparation before painting. This fender is perfectly matched to be used with either 16" front wheels using 130/90/16 tires or with the stock 18" front wheel and 130/70/18 tires.

Kawasaki and Yamaha Front Fender

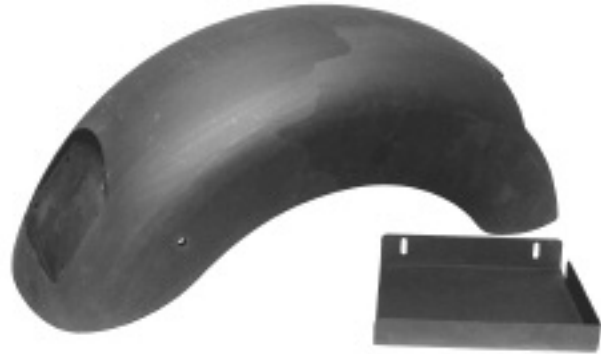

111722 SOLD EACH

Round Top Rear Fenders with License Plate Frame & Stop / Tail light

Heavy duty 9.00", 10.25", 11.00", 12.50" and 13.50" rear fenders with **license plate box** for Custom applications. Fenders are made from 0.080" (14 gauge) steel and formed in one piece for added strength. Unlike the two piece welded fenders these won't split or crack down the middle. The fenders have been phosphate etched to help prevent corrosion and to give a good surface for primers to adhere. They are supplied raw and un-drilled for custom applications. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

11442 SOLD EACH
Fits Custom applications on frames using up to 240 wide rear tires, fender is **10.25" wide and 33.90" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

11443 SOLD EACH
Fits Custom applications on frames using up to 250 wide rear tires, fender is **11.00" wide and 33.90" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

11444 SOLD EACH
Fits Custom applications on frames using up to 280mm wide rear tires, fender is **12.50" wide and 31.57" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.

11445 SOLD EACH
Fits Custom applications on frames using up to 330 wide rear tires, fender is **13.50" wide and 31.57" long**. Includes chrome CNC machined license plate frame with DOT approved Half Moon LED stop and tail light.
